

Dear Parents/Guardians

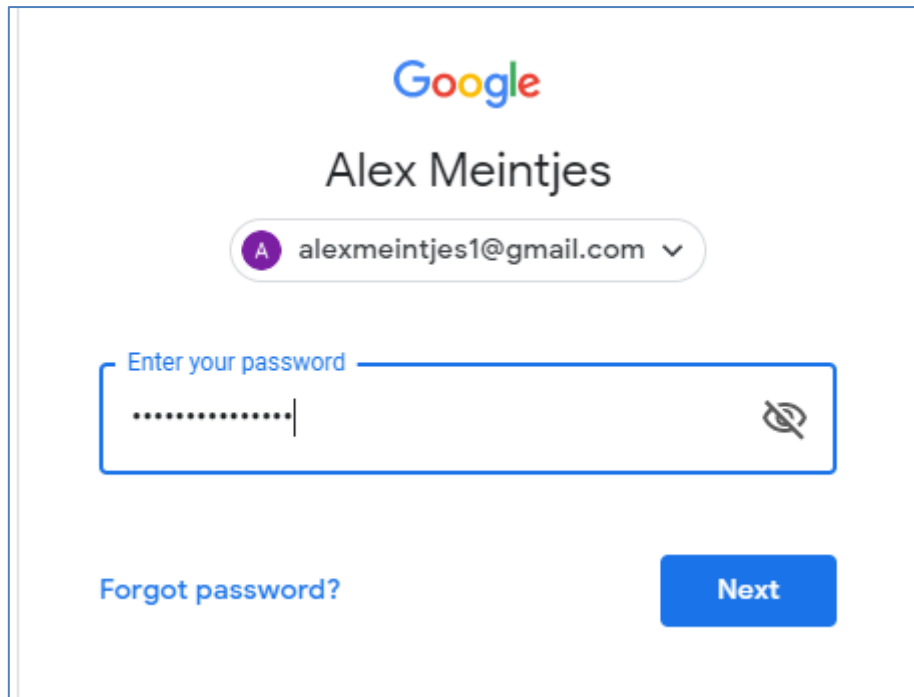

During this period of closure many subjects will be trialling “Google Classroom” and having a look at all the fantastic opportunities this platform can offer. We encourage you, the parents, to get your boys onto this platform as soon as possible. You are welcome to join too! On this platform we will be uploading relevant content and valuable resources as well as digital copies of many tasks and assignments.

To get onto this platform simply follow these easy steps:

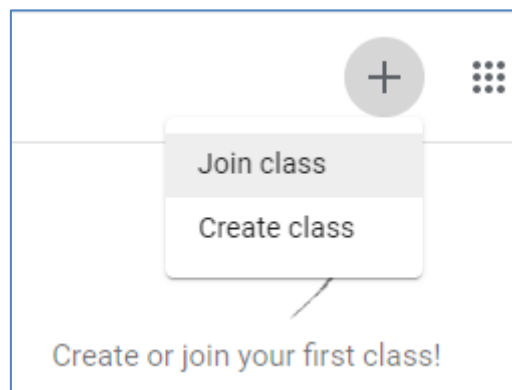

1. Search for “Google Classroom” into your browser (any internet browser will do).

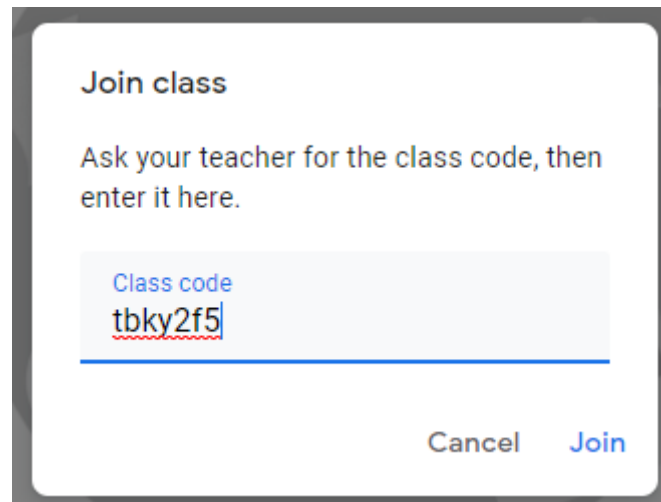

2. Simply click on “Google Classroom” and you’ll be asked to log in (if you are not logged in already). Enter your details or create an email address to get access.

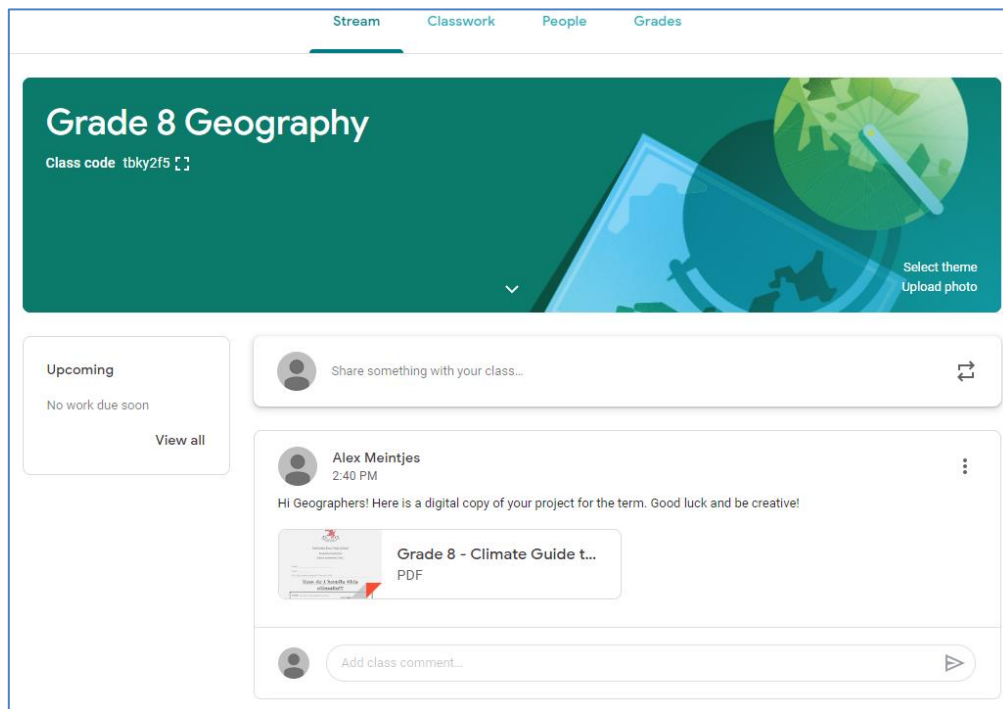

3. Once you are in, you will notice a '+' sign at the top right hand corner. Simply click on that symbol and select "Join a Class".

4. Once you have selected that option, enter the code and join! It's that simple. The Grade 8 Geography code is displayed below. All of the letters are in lower case.

5. Explore and enjoy!

On this platform your son will have access to all important documentation and be able to really explore the topic. As this is our first time using this platform too, we are in no way claiming to be experts at “Google Classroom” and so we are also going to be taking this journey with your son. There is also an app available on the Google Play Store and it works on most Android and Apple devices.

Kind regards

Mr A Meintjes
